PROFESSIONAL SUMMARY

Experienced Software Engineer with over 2.5 years of expertise in full-stack development, specializing in the MERN stack (ReactJS, Node.js, MongoDB, Express.js). Skilled in building scalable, high-performance web applications with strong API integration and responsive design. Adept at deploying applications using AWS, enhancing application performance, and collaborating with cross-functional teams to deliver quality software solutions. Passionate about solving complex problems and driving innovation.

WORK EXPERIENCE

MERN Stack Developer (Xeven Solutions)

Feb 2024 – Present

- **Awfera Lms:** [View Live Project](#)

Worked on the frontend development of Awfer Alms, utilizing React.js and Ant Design (AntD), creating a responsive interface. Integrated dynamic API endpoints, utilized Redux Toolkit for state management, and optimized reusable components to enhance efficiency and reduce load times. Collaborated with backend teams to ensure smooth real-time data flow.

- **MedicalAI:** [View Live Project](#)

Write and integrated APIs ExpressJs and on frontend use Next.js, utilizing Redux Toolkit query and AsyncThunk for state management. Worked extensively on the chat module, implementing Socket.io for real-time messaging, including group chat functionality.

- **FamilyDoc** ([View Project](#)):

Worked on the frontend development of FamilyDoc, utilizing Redux Toolkit and AsyncThunk for state management. I worked extensively on the payment module, implementing a stripe for payment also create chat screen interface

- **Buch International Hospital:** [View Live Project](#)

Contributed to frontend integration using React.js, Redux for state management, and Material UI for styling.

- **CloudSol:** [View Live Project](#)

Built an AI-powered chat interface enabling image and text-based analysis using ShadCN and TypeScript.

MERN Stack Developer (Tkturners)

Sep 2022 – Feb 2024

- **Stack Digital Card:** [View Live Project](#)

Developed a scalable application with a robust Express.js backend, integrating Google OAuth 2.0, Stripe for payments, and real-time analytics via Socket.io. Enabled seamless mobile access with PWA functionality, enhanced the front-end using CraftJS and MUI for dynamic styling.

- **RentIt Homes:** [View live Project](#)

Integrated Strapi backend with a Next.js frontend, utilizing Redux Async for efficient state management.

- **OverReil LLC :** [View Project](#)

Developed the frontend using Material UI (MUI) for styling and Redux for efficient state management. Integrated dynamic features to ensure a responsive and user-friendly interface, enhancing overall functionality and performance.

- **Raza-Mart E-commerce:** [View live Project](#)

Built a MERN-based e-commerce platform with secure Stripe payment integration and JWT authentication for user sessions, ensuring smooth backend operations and secure data handling.

Full Stack Web Developer

Jun 2021 – Aug 2022

Main Complex DHA Phase 6 TMS (Tea Bar Management System)

Role: Full Stack Developer [GitHub Link](#)

Description: Developed the frontend using HTML, CSS, and Bootstrap to create a user-friendly interface. Enhanced interactivity and user experience with JavaScript and jQuery. Handled authentication and backend operations using PHP within the CodeIgniter MVC framework, ensuring a secure and efficient system. Managed data operations with MySQL for reliable data handling.

SKILLS

- HTML ,CSS
- JavaScript,TypeScript
- ContextApi,Redux
- NodeJS (ExpressJS ,NestJs)
- Database (PostgresSql,MongoDB)
- Cloud services
- Material UI , TailwindCSS,Bootstrap, SASS
- ReactJs,NextJS
- CraftJS
- PHP (Codeigniter)
- Socket io

CERTIFICATES

Full Stack Website Development

Jan 2020

Mobile Application Development React Native

Jun 2021

EDUCATION

BS Computer Science

Sep 2018 – Jun 2022

Lahore Garrison University Pakistan, Lahore
